Animal ,poultry and environmental hygiene courses in 10 diplomas belonged to different departments.

Courses of Diploma of Environmental Pollution

```
graph TD; A[Courses of Diploma of Environmental Pollution] --> B[Environmental Health and pollution]; A --> C[Pathology of environmental pollution]; A --> D[Environmental toxocology]; A --> E[Radioactive isotopes and their usage]; A --> F[Animal Byproducts]; C --> G[Epidemiology];
```

Environmental Health and pollution

Pathology of environmental pollution

Environmental toxocology

Radioactive isotopes and their usage

Animal Byproducts

Epidemiology

Courses of Diploma of Veterinary Epidemiology

Epidemiology

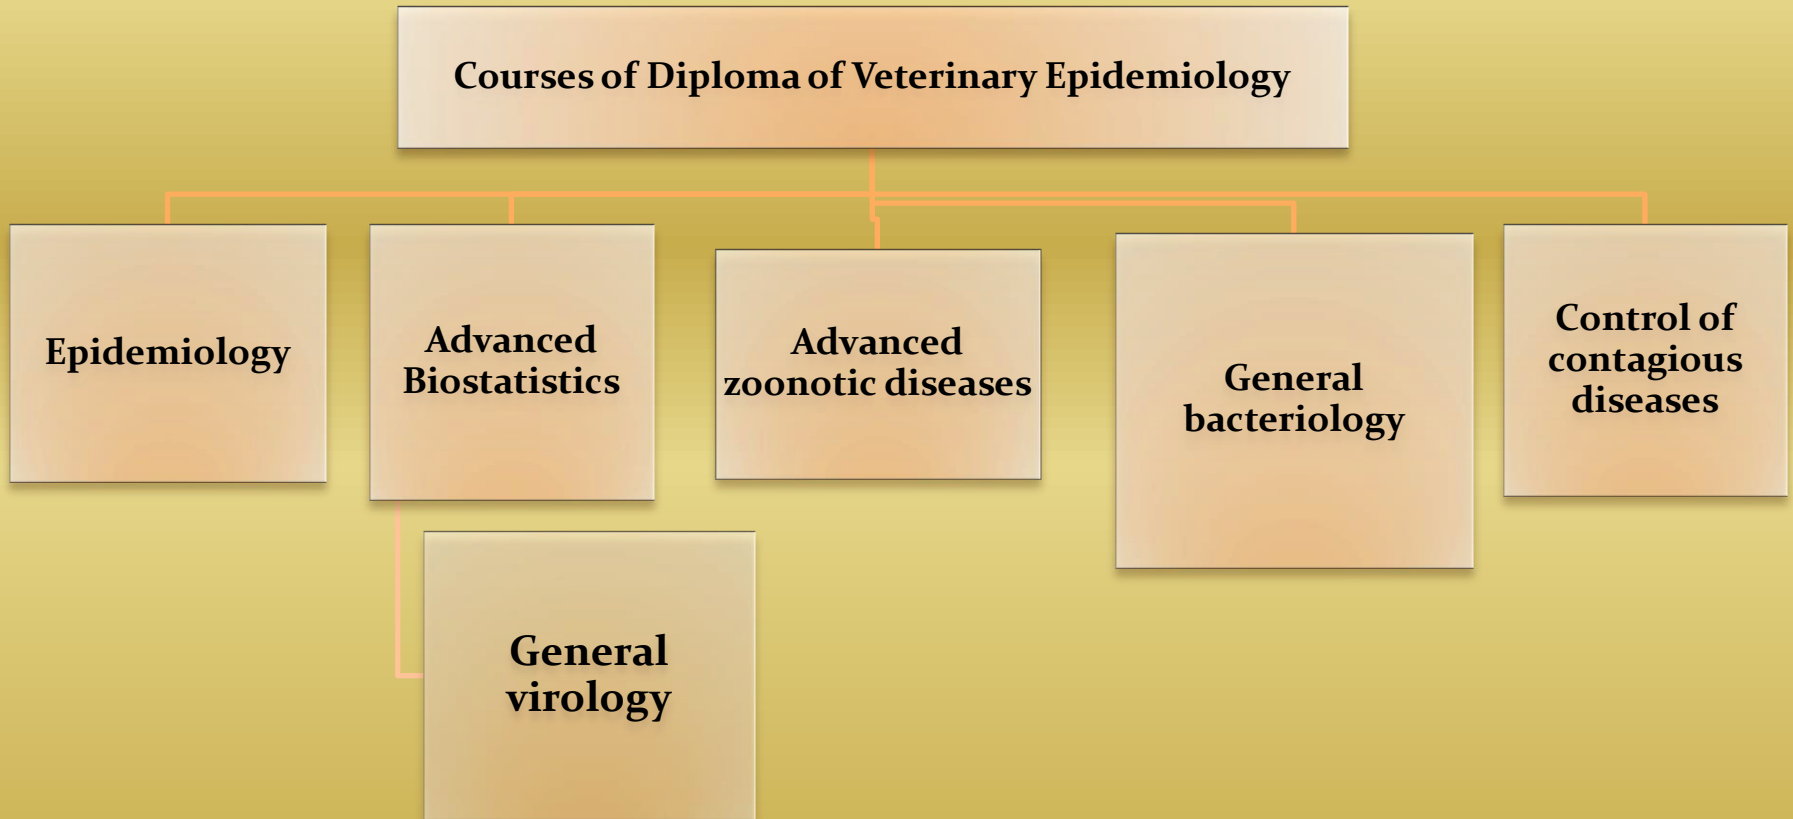

**Advanced
Biostatistics**

**Advanced
zoonotic diseases**

**General
bacteriology**

**Control of
contagious
diseases**

**General
virology**

Courses of Diploma of Veterinary Public health

**Farm animal
hygiene**

**General
bacteriophage**

**Advanced
general
parasitology**

Epidemiology

**Advanced
zoonotic**

**Biostatistics
and
computer**

**Special
virology**

Courses of Diploma of veterinary Extention

**Veterinary
health
systems**

Media

**Biostatistics
and
computer**

Social Science

**Extension
Science**

**Reverso
context**

Courses of Animal ,poultry and environmental hygiene taught with other Diplomas in Different Departments

**Diploma of
microbiology
Epidemiology**

Diploma of
communicable
diseases
Epidemiology

Diploma of
avian and rabbit
diseases
Advanced
poultry hygiene

Diploma of
animal
husbandry farm
animal hygiene

Diploma of
animal
byproducts
hygiene and
management of
abattoir

Courses of Animal ,poultry and environmental hygiene taught with other Diplomas in Different Departments

Diploma of animal
tropical medicine
Environmental
health

Diploma of
management of
abattoirs
Disinfection and
disinfectants

Diploma of
disease and
management
of racing

disease

Diploma of
camel disease
vector and
rodent control

Diploma of
ostrich diseases
Advanced
poultry hygiene

Courses of The Master of Animal ,poultry and environmental hygiene

**Farm
animal
hygiene
course
240**

**Housing
of farm
animals
course
246**

**Disinfection
and
disinfectants
Course 247**

**Heavy
metals
and
public
health
course
249**

**Advance
d
poultry
hygiene
course
241**

**Environ
mental
health
and
pollutio
n course
242**

**Control
of
contagio
us
disease
Course
243**

**Vector
and
rodent
control
course
244**

Courses of The PhD of Animal ,poultry and environmental hygiene

```
graph TD; A[Courses of The PhD of Animal ,poultry and environmental hygiene] --> B[Pesticides and Public health course 245]; A --> C[Epidemiology Course 248]; A --> D[Veterinary health systems course 250];
```

**Pesticides and Public
health course 245**

**Epidemiology
Course 248**

**Veterinary health systems
course 250**

Syllabus of Animal ,poultry and environmental hygiene For Undergraduate Students (5th Year)

1st term

Water Hygiene
Air Hygiene
Soil Hygiene
Animal Housing

2nd term

Epidemiology
Control of diseases
Vector Control
Aqua culture Hygiene
Animal Transportation
Disposal and utilization of animal Wastes
Biosecurity
Stress and animal health
